LABOR DELEGATES IN AGREEMENT ON DISPUTED CLAUSE

Agree to Make Labor Conference Decisions Binding On All Nations

BRITISH SUGGESTION IS FINALLY PUT INTO DRAFT

Main Features of French Plans Are Incorporated Into Articles

(Associated Press Telegram)

Paris, Feb. 13.—The agreement by the commission on international labor legislation of the peace conference yesterday to accept articles IV of the British draft of measures to settle the future status of international labor marks the passing over safety of an obstacle which the labor leaders expected would provoke a bitter contest, for the reason that it is not the most radical of the projects of organized labor is seeking to graft upon the constitution of the society of nations.

This article provides that at the proposed international labor conference the representatives of the government, the employers and working people shall be entitled to speak and vote independently without regard to the views expressed by the other representatives of their nation and to have power to draw up conventions binding on the nations represented.

The rapid motion made upon the balance of the British draft, into which will be incorporated certain features of the French labor plan, appears to warrant the belief that the essential subjects of the draft of the articles will be accepted, although final action by the peace conference is predicted.

The British draft covers a wide field, including the following provisions:

Uniformity of the rights of workmen employed abroad, their protection against loss when in a foreign country through the negligence of the nations against sickness, old age, accidents, unemployment and similar causes.

Prevention of unemployment through the adoption by the defendant governments of a policy of distribution of orders for work so as to keep the demand for labor at an approximate uniform level.

The relief of the unemployed through a system of registration and co-operation between employers in different lines of industry to meet fluctuating labor demands.

Opportunities to unemployed young workers for the continuance of their education at established centers of industry and workshops to insure the execution of labor laws. The protection of children, youths and women, with educational opportunities for the children and the regulation of night work for the youths.

The limitation of the working shifts for young persons to half that of adults with no overtime or night work.

The recognition of the rights of workmen to combine and the work of peaceful picketing.

The recognition of the right of workmen to combine politically, and the right of trades unions to participate in politics.

Working hours to be fixed by laws in each state with an international standard as the minimum.

The regulation of home work in small shops, or in sweat shops, to be attended to by each state, in view of the difficulty of settling this problem by international legislation.

An international code regulating labor conditions in the mercantile marine under every flag to be worked out by a special maritime commission for the league of nations in continuous session to take up new points.

It seems to be agreed that the wholly different wage and money standards of the east and west would make the definite fixing of conditions as to these matters impossible, as is the right of workmen to combine, the British view is that this at least should be insisted upon by the working class, although it now is denied by Japan.

The measures of hygiene, insurance and the regulation of the work of children are also contained, ought to apply to native Asiatic labor.

The British plan also contemplates the creation of a permanent international commission to fix minimum wages according to the conditions in various regions and to make a special study of native labor problems.

It is proposed to include in the league of nations plan the constitution of an international parliament composed of delegates from the existing parliaments and to make a special study of native labor problems.

The abolition of military training in schools and the national exchange of university students is also proposed. The French labor proposals include the regulation of labor through national employment bureaus, prohibition upon the labor of children under 14 years of age, prohibition of night work by women, and a maximum eight-hour working day in factories where the furnaces are always lighted, together with laws regulating hygiene and the safety of the workers.

W. C. T. U. WILL ATTEMPT REFORM WOMEN'S DRESS

"Are the young women who have been in uniform for the Red Cross, the Y. W. C. A. and other war services expected to return to the absurd, immodest costumes they wore in other years?" demanded Mrs. W. J. Neff, president of the non-Partisan W. C. T. U., who presented the resolution.

Present day clothing for women is not only said, and one of the forms rather to man's notions of what women ought to wear, than to woman's knowledge of the proper sort of garb.

WAR MAY NOT BE OVER---HARDING

Ohio Senator Says He Fears President Is Not Telling All He Knows.

(Associated Press Telegram)

Toledo, Feb. 13.—Senator Harding sounded a note of warning that war with Germany may not be over despite the temporary cessation of hostilities, and sharply criticized the Wilson administration both of commission and omission in a Lincoln day speech here last night.

"More than that, no man can come to American hearthstone who shall not kneel at the altar of American conservation and pledge undying fealty."

"When the armistice came—let us hope it is the assurance of the war's end and not the herald of a world war assumed—the natural, normal, prudent thing was the speeding to the peace table, the final settlement with Germany, so we could turn again to the pursuits of peace."

"Perhaps we cannot appraise the situation now existing at the peace table; perhaps we do not know all that is involved. I fear the president isn't telling all that he knows, as he said he would, by cable, else there isn't much doing."

It is not reassuring to have Germany maintain her armies, while allied armies are demobilizing and jealousies develop and problems mount higher and higher at the peace table which is puzzling to recreate the world."

BRITISH FLEET GAINED IN POWER

Jellicoe Declares German Strength Early in War Demanded Careful Respect From Allies.

London, Feb. 13.—The dangers to which the British fleet, short of cruisers, destroyers and with defective bases, was exposed during the first two and one-half years of war owing to the German use of submarines, mines and torpedoes, is described in a book written by Admiral Jellicoe, former commander of the fleet, and published yesterday covering the activities of 1914-16.

Admiral Jellicoe points out that the German high seas fleet possessed 88 destroyers compared with 42 for the Grand Fleet and reveals that owing to the submarine menace the Grand Fleet in the fall of 1914 moved from Lough Swilly and only returned to the North Sea when the anchorage in Scapa Flow became reasonably safe.

Neither in October 1914 nor in May 1916, Admiral Jellicoe says, "did the British margin of superiority justify him in disregarding the enemy's torpedo fleet. The situation gradually improved after 1916, especially as the light cruiser and destroyer forces with the grand fleet increased steadily after the battle off Jutland, and the danger of successful torpedo attack, while the inclusion of class K submarines made it probable that the enemy would suffer more severely from submarine attack than we did in August, 1914."

MAST'S CONDITION IS IMPROVED DOCTOR SAYS

The condition of John V. Mast, burned in the explosion at the Mast cremery, Tuesday night, was reported as much better by his physician, Dr. H. H. Baker, this afternoon. Dr. Baker stated that he was resting much more comfortably. There was a pronounced improvement and the indications were that he would entirely recover unless serious complications should develop. He is being cared for at the Sanitarium, but will not be allowed to see any of his friends for several days. That Mast escaped with his life when the explosion took place is a miracle as it partially wrecked the east end of the building, even tearing part of the roof and cracking a wall in addition to blowing out the rear end of the cremery.

MISSION BOXES REVEAL 23,271 LINCOLN PENNIES

Choosing the birthday anniversary of the martyred president Abraham Lincoln as the day on which to count their savings of Lincoln pennies, the members of the Presbyterian Missionary Society of the First Presbyterian church last night opened 100 bags and found that 23,271 pennies had been saved.

One hundred and thirty-five bags had been placed among the members and the thousands of pennies saved during the year in 100 bags amounted to \$232.71.

Thirty-five bags are still out on which there is no report.

Following the opening of the bags, Dr. C. L. Williams of Denison University gave an address picturing Abraham Lincoln as his ideal man, drawing the lessons of life from his character.

Proceeding the meeting the society elected the following officers for the ensuing year: President, Miss May Moore; first vice president, Mrs. Calvin Hazlett; second vice president, Miss Laura Jones; recording secretary, Mrs. Clifford Frye; corresponding secretary, Mrs. Jennie Stewart; treasurer, Mrs. Anna Dill; pianist, Mrs. Guy Shrider.

INFLUENZA--WHEN CHEST COLDS AND LUNG TROUBLES THREATEN

Just Rub Famous Forkols over Throat and Chest--Relieves by Inhalation and Absorption.

You simply apply a small quantity of Famous Forkols over the throat, chest and back, covering with a warm flannel cloth. The body heat releases the ingredients that are inhaled in the form of vapors, while the penetrating oils and fats are quickly absorbed through the pores, healing and soothing the throat.

Go to your druggist and ask for a small jar of Famous Forkols and begin the treatment at once. Thousands have used the Forkols treatment instead of nauseous internal dosing for Colds and Croup, Sore Throat, Bronchitis and even incipient Pneumonia.

Your druggist or Evans' drug store can supply you.—Advt.

GIRLS! ACT NOW! HAIR COMING OUT MEANS DANDRUFF

"Danderine" will save your hair and double its beauty at once.

Try this! Your hair gets soft, wavy, abundant and glossy at once.

Save your hair! Danderine! It is only a matter of using a little Danderine occasionally to have a head of heavy, beautiful hair, soft, lustrous, wavy and free from dandruff. It is easy and inexpensive to have pretty, charming hair and lots of it. Just spend a few cents for a small bottle of Knowlton's Danderine—now all drug stores recommend it—apply a little as directed and within a few days there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will, you can not find a trace of dandruff or falling hair, but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is a hair lover, the only sure hair renewer, destroyer of dandruff and cure for itchy scalp, and it never fails to stop itching hair at once.

If you want to prove how pretty and soft your hair really is, use a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this. Adv.

AN INTERNAL TREATMENT FOR PILES (HEMORRHOIDS)

Gives absolute relief from all pain and suffering. Has never failed. Guaranteed.

Many people have become despondent because they have been led to believe that their case was hopeless and that there was no remedy for their case. Go to your druggist and get an original bottle of Miro Pile Remedy, the discovery of a clever Ohio chemist, that taken internally, passes unchanged through the stomach and intestines, and thus reaches the source of the trouble where, by its soothing, healing, anti-septic action, it first allays and then by direct contact with the ulcers and piles causes them to heal and disappear forever.

It is positively marvelous how speedily it acts. Blessed relief often comes in two or three days, even in cases that have resisted all previously known treatments. Truly wonderful results have been accomplished. It is one of the wonderful discoveries of recent years and anyone who is disappointed with its use can have their money refunded.

All pharmacists dispense Miro or can get it for you on short notice. IMPORTANT: What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal prescription. T. J. Evans' Pharmacy—Adv.

Easy to Make This Pine Cough Remedy

Thousands of families swear by its prompt results. Inexpensive, and saves about 5¢.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain granulated sugar syrup. To make the best pine cough remedy that money can buy, put 2½ ounces of honey in a pint bottle and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made—for three times the money. It is pure, good and very pleasant—children take it eagerly.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the irritation of phlegm. The cause is the same—inflamed membranes—and this Pine and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pine is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "21 ounces of Pine" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pine Co., P. Wayne, Ind.

Simple Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tip. If you have a lot of dandruff, use three or four more applications, will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be shiny, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Maj. Gen. Farnsworth Praises Ohio's 'Bring 'Em Back' Plans.

Columbus, O.—(Special).—As soon as Major General Charles S. Farnsworth, commanding the Thirty-seventh division, learned of the Ohio War Savings Committee's plan to organize "Bring 'Em Back Clubs," through General Pershing he cabled his approval and endorsement to Secretary of War Baker.

The Thirty-seventh is composed mostly of "Ohio's Own." In its first offensive in the Argonne the division advanced several miles against the enemy in positions held for more than four years, captured more than 1,100 prisoners, guns, ammunition and other stores.

In his cablegram to Secretary Baker, General Farnsworth says:

"The boys of the Buckeye division, upholding the traditions of old Ohio and inspired by the knowledge that the people of their state were behind them to the last, went over the top in the Argonne and in Flanders unflinching of sacrifice, thinking only of victory. 'Well done, Ohio,' are tacitly the words from their higher commander. Your boys have given everything; they are now looking back from their fields of sacrifice to their homes across the sea, confident that in the War Savings Stamp drive the words of the nation will be, 'Well done, Ohio.'"

Skilled in Fine Work.

One of the trades calling for the greatest skill is the making of compasses. This work had never been undertaken by women until dilution of labor became necessary. Of the infinite number of delicate parts demanding absolute accuracy, women have succeeded in making all but two or three and even these will shortly be to their credit.

ASK YOUR NEIGHBOR
It has been said that there is now hardly a city, town or village in this country wherein some woman does not reside who has found health in that good, old-fashioned remedy, Lydia E. Pinkham's Vegetable Compound. Therefore, if you are suffering from some ailment, and hardly know what to do for it, and have tried other remedies without help, ask your neighbor if she has ever used Lydia E. Pinkham's Vegetable Compound. If she herself has never had the need for it, undoubtedly she knows others who have been restored to health by its use. (Adv't.)

The memory of Abraham Lincoln was honored at a patriotic meeting held in Memorial Hall Wednesday evening. A large attendance assembled and an interesting program was given. Pertinent to the life and character of Lincoln several interesting talks were given by H. F. Moninger, J. W. Horner, A. S. Mitchell, O. E. Hunt and A. R. Painter. Mrs. W. H. Hickman read the Lincoln's Gettysburg address and violin solos were given by Miss Martha Flurschütz. The program concluded with the singing of the "Star Spangled Banner."

NEWARK MAN WILL ADDRESS MERCHANTS

The third annual commercial conference of the Ohio Retail Merchants will be held at Columbus on Thursday and Friday, February 20 and 21. An interesting program has been arranged and the sessions will be at the Southern Hotel and Southern Theatre. The address of welcome will be delivered by Mayor George J. Kari and Henry Williams, president of the Chamber of Commerce. The response will be made by W. H. Mazy, of the Mazy company of this city.

BELL RINGERS WILL GIVE MATINEE FOR CHILDREN

On Monday two appearances of the Swiss Bell Ringers has been arranged for, at the First M. E. church. The attraction is a novel one, making an appeal from the musical standpoint, as well as from the novelty and originality of the musical instruments used. There will be two matinee performances and the company will again appear in the evening.

HONOR SOLDIERS IT'S VERY EASY TO FORM CLUBS

The employees of The Styron Berge company who organized a "Bring 'Em Back" club in honor of Leo T. Prior, a slain marine, completed another club in honor of Sergeant Ray Case of Newark, who is in Evacuation hospital No. 14 A. E. P., Germany, by subscribing for \$500 worth of War Savings Stamps. They are now at work on still another club in honor of their intention to honor every one of the Styron Berge employees in service. The county chairman of the W. S. S. committee is also in receipt today of two applications for charters in honor of George Mullen and Leo Emerson, both Johnstown soldiers. The organizer of these two clubs is Mrs. Fern Shrader 583 Mt. Vernon road Newark. Mrs. Shrader is buying 200 W. S. S. herself so which she is thus honoring the two soldiers above named she is also becoming a member of the \$1000 War Savings Society. Letters are being sent out to both Mullen and Emerson telling of the commitment paid them by Mrs. Shrader who will have charters to present them upon their return home from Europe.

Within a short time the posting of soldiers' names upon the court house back bulletin boards will begin. In alphabetical order the names of soldiers in whose honor "Bring 'Em Back" clubs are organized will be posted. Friends and relatives of soldiers now in service either in Europe or America are invited to organize clubs. All that is necessary to do is to telephone to county chairman (auto 23124) and ask for application blanks then secure pledges for the purchase of stamps amounting to \$500. The organizer does not sell the stamps but only secures pledges from those who are willing to buy one up to 200 stamps in honor of the soldiers and sailors whose names appear upon the application blanks. There should be a club formed for every soldier and every sailor in service.

George M. Penberg is meeting with success in forming a "Bring 'Em Back" club in honor of Leo T. Prior his former doorman at the Auditorium. Prior is now in Germany. Advocates readers will remember the several good letters that he has written for this newspaper.

Miss Kirby principal of the Mount street school building, expects great interest in the purchase of War Savings Stamps among the pupils of West Newark. Already this year the children there have bought over \$400 worth of stamps and they are planning organization of a "Big Brothers club."

Mr. C. A. Wilson 428 Granville street who bought 200 W. S. S. last year thus becoming a member of the thousands of men who have purchased the stamps, has repeated the purchase of 200 stamps of the new issue.

TWICE PROVEN

If you suffer backache, sleepless nights, tired, dull days and distressing urinary disorders, don't try other remedies in this twice-told testimony. It's Newark evidence—doubly proven. Mrs. Julia Rost, 140 W. Main St., gave the following account of her experience on September 14, 1914: "My back felt weak and when I did any sweeping or other housework, sharp pain often caught me across my back. Dizziness troubled me a lot. Whenever I bent over I felt as though I were going to fall and specks came before my eyes. There was an ache in the back and top of my head and my kidneys didn't act at all as they should. Two boxes of Doan's Kidney Pills gave me splendid relief. My kidneys became normal and the pains left."

Results That Remain.
On February 7, 1917, Mrs. Rost said: "I have had no need of Doan's Kidney Pills or any other kidney medicine since Doan's cured me in 1914. I gladly endorse Doan's again."

ELKS AGAIN PRESENT PLAY TO FULL HOUSE

Every seat in the Auditorium then- was sold last evening for the Elk minstrel and orchestra. The previous evening an enjoyable entertainment was given. The show went with a snap and vim and there was not a single hitch in the entire performance and the curtain dropped on the last act at 10:45, something unusual for an amateur performance. Previous to the opening of the doors the Elk band of 14 pieces gave an open air concert in front of the Auditorium. Every one in the minstrel acquitted himself admirably.

COGGINS EXPECTS TO GET DISCHARGE SOON

Mrs. S. E. Coggins of 155 West Locust street has received a message from her son, Corporal Max Coggins, telling of his safe arrival in New York from overseas. He stated he had arrived at Camp Mills and expected to be sent to Camp Dix in a few days. That he was feeling fine and expected to be home soon. Corporal Coggins, left Camp Sherman ahead of the 3rd division and has been attached to the headquarters department, 1st depot division, statistical section.

SHOP HERE HALF-SOLES TIRES FOR AUTOMOBILES

A new business, the only one of its kind in the city, is being operated at 17 North Fourth street by Neil & Black, who were formerly real estate dealers here. It is known as the Newark Tire and Repair company. In this plant old tires go through the process of being "half-soled" and are made to look like new again at half the cost of a new tire. The half-sole is made by the Gates Rubber company and is applied here, all necessary equipment having been installed in the place in Fourth street.

The tires are first examined for breaks in the fabric known as checking, and if found indicate that the tire has started to rot and it would be a waste of money to have it half-soled. Blowouts and punctures are excepted, as they can be repaired. What is known as the "half-sole" is then removed, this being a strip of fabric running from one-quarter to one-half inch above the head of the tire, this is done that head will be no larger than before. The tire is then buffed off, all non-skid projection is removed, exposing new rubber everywhere. It is then

ready for any repairs that may be necessary, after which the half-sole is applied, with first coat of cement, the second coat is applied 45 minutes later and allowed to cure for seven hours. It is then ready to be rolled down, trimmed, inspected, and ready for the customer with a 3,500 mile guarantee against puncture. The process of half-soled tires was invented by Chas. C. Gates of Denver, starting with a capital of \$3,500, this business has grown in five years time to a two million dollar corporation, and, excepting \$200,000, is all the money that has been made and reinvested in the business. During this period building for a larger production has never ceased, as each new building was com-

pleted it was necessary to start another to take care of increasing demand. O. B. Black spent six weeks investigating the Gates half-sole before opening this service station.

AMUSEMENTS

ALHAMBRA.
"The Danger Zone."
Miss Madeline Travers, who appeared yesterday as a William Fox star at the Alhambra theatre, lived up to all the praise that heralded her coming. In brief, she proved a big hit in "The Danger Zone," the new Fox production.

Miss Travers is plainly destined to gather a constantly increasing host of followers. She is a statuesque beautiful woman, and puts upon the screen the emotional acting for which she has been so well known on the speaking stage. Today Charlie Chaplin in "Shoulder Arms" is an added feature and will be seen at this house the balance of the week.

Men Who Flirt Scored in Film.

That the film version of "Victoria Cross" widely discussed novel "Five Nights" gives promise of causing even more discussion than the book, is disclosed by the foreword of the new picture which establishes the fact that the producers of the drama have attacked the subject from an entirely new angle, in that men directly responsible for the broken hearts which follow in the wake of even innocent flirtations.

Trevor Lonsdale, the artist-hero of the story, is quoted as follows:

"As one looks over any period of one's life, it appears as a shining maze of brilliant color with spots here and there of brighter or darker hue. Each spot represents a period of time when our happiness glowed brighter or waned. Sometimes it is a day, more often it is a night. Looking back over a stretch of my existence, there are five nights which have stamped themselves and their color on my memory forever.

Five nights that opened my eyes to the following truths: When a man woos a woman, knowing in his heart that he will never marry her—no matter how innocent the flirtation, he is responsible for any misery that enters her life because she is the victim of a hopeless love—measure the agony of a breaking heart—count the tragedies that follow in the wake of broken engagements.

The five interesting episodes of his life, which he treats in Gold, Violet, Black, Crimson and White, complete the six reels of the picture and are said to prove the force of his argument while at the same time telling a gripping story replete with tense situations and stirring climaxes.

"Five Nights" will be the attraction at the Alhambra theatre, beginning tomorrow and will run over Saturday.

Dustin Farnum.

Patrons of the Alhambra theatre will welcome Dustin Farnum in his big United superfeature, "The Light of Western Stars," which will be shown Monday and Tuesday. This famous stage and screen star will be seen as the wild, but lovable Gene Stewart, ace cowboy of the South Western border.

With Dustin Farnum's virile, convincing talent and the most thrillingly fascinating of Zane Grey's masterly stories the picture teems with exciting interest. The plot deals with the adventures which arise out of Gene Stewart's wild wager that he would marry the first girl who blew into the little Western town.

AUDITORIUM.

"Shoulder Arms."

The tragic phases of the experiences of the average doughboy, from the time of his first membership in the "rookie" squad until he becomes a full-fledged, dainty terror to the Hun, is the basis of the story told in "Shoulder Arms." Charlie Chaplin's second million-dollar picture, to be distributed by the First National Exhibitors' Circuit.

Charlie's difficulties begin when his feet attack the command of the drill sergeant. The command to "take them in—not out," causes complications that threaten to create a private war in Charlie's company. The manual of arms looked easy to Charlie until he tried it. The gun but persists in stealing within the grasp of the muzzles, not only the discomfort of the muzzles, but to the anxiety of his companions on the right and left of him.

This feature is shown at both the Alhambra and Auditorium theatres.

"Say, Young Fellow."

When Joseph Henaberry, one of the best-known directors in motion pictures, directed Douglas Fairbanks' great success, "The Man From Painted Post" last year, he evinced talents of the highest order. Some time ago he wrote a novel story the originality of which attracted Mr. Fairbanks instantly and work upon its production was begun without delay. This was "Say, Young Fellow." Mr. Fairbanks' latest Artcraft starring vehicle, which will be shown at the Auditorium theatre today, tomorrow and Saturday.

The scenes of "Say, Young Fellow," are laid in a small inland city which has its newspapers, all looking for the conventional "coop" in the way of exclusive news. On one of these newspapers is employed a "young fellow" who is widely known for his smiling optimism which defies discouragement. When he succeeds against almost insuperable odds in getting an interview from a cruddy old politician who booted the press and its representatives, "the young fellows" stock mounts high.

Charlie Chaplin in "Shoulder Arms" is an added feature.

"Creaking Stairs."

Don't try to be a photoplay star unless your eyes register perfectly. Mary McLaren, the star of "Creaking Stairs," the Universal Special Attraction, which comes to the Auditorium theatre on Sunday, has eyes of a very peculiar quality, which register perfectly whatever the emotion she seeks to portray.

Miss McLaren's eyes have the very desirable "come hither" quality, with an occasional flash of "I dare you" and a touch of "I'll kill you if you do" for safety. They are sky-blue, large, and framed with thick lashes.

The Bronze Buddha of Kamakura.

So many copies of famous monuments to an ancient civilization exist in all the Orient that the celebrated Dai Butsu, the gigantic bronze image of the Gautama Buddha, which stands at Kamakura, a motion picture tour of old Japan, which is a feature of the new East Leam, B. H. Travels, Festival, coming to the Auditorium soon, includes a remarkable picture of the Dai Butsu.

In all its history Japan had more than sixty capitals, of which Kamakura was one. For the city, which once numbered a million souls, has long since passed into oblivion. The
